Título: An ac temperature technique for measuring the high-temperature specific heat of metals

Editorial: Oak Ridge, Tenn. U.S. Atomic Energy Commission. Division of Technical Information. Oak Ridge, Tenn. Distributed by the Office of Scientific and Technical Information, U.S. Dept. of Energy 1970

Descripción física: pages : 71 digital, PDF file

Tipo Audiovisual: Tungsten/thermal Capacity Of, Ac Temperature Method For Measuring High-temperature Metals/thermal Capacity Of, Ac Temperature Method For Measuring High-temperature

Nota general: Published through the Information Bridge: DOE Scientific and Technical Information 01/01/1970 "Ucrl--50962." Finnila, R.M.

Tesis: Thesis. UNCL. Orig. Receipt Date: 31-DEC-71

Financiación: W-7405-ENG-48

Copyright/Depósito Legal: 1062907432

Materia: Alternating Current Metals Specific Heat Measuring Methods Tungsten High Temperature

Entidades: Lawrence Radiation Laboratory. res U.S. Atomic Energy Commission. Division of Technical Information. res Estados Unidos. Department of Energy. Office of Scientific and Technical Information. dst
