

# Aplicaciones del metaverso en entornos universitarios: Una revisión sistemática [

2023

text (article)

Analítica

The objective of this study was to analyze the applications of the metaverse in university environments. The methodological process used was the PRISMA protocol. A detailed analysis of the key findings of 50 studies, published in recent indexed journals, was carried out. The results reveal that the use of the metaverse in university environments has proven to be beneficial, identifying opportunities for the creation of more immersive and personalized learning experiences, facilitating the development of practical skills. It is concluded that the metaverse constitutes an educational tool with great potential to transform the way academic content is delivered and experienced
