Nota general: "On October 2 and 3, 1975, a meeting of the Subcommittee on Triassic Stratigraphy (of the IUGS Commission on Stratigraphy) was held in Vienna, and due to the topic drew to Vienna a large number of participants in the IGCP Project 'Triassic of the Tethys Realm.' A workshop-type meeting on this international geological research project was therefore held simultaneously and led to the publication of this volume. With [one] exception ..., the papers published in this volume almost entirely spring from the IGCP Projekt no. 4 workshop meeting"--Page 6 Publication date from label mounted on title page
