Título: Harmonic analysis of probability measures on hypergroups Walter R. Bloom, Herbert Heyer

Edición: Reprint 2011

Editorial: Berlin New York W. de Gruyter 1995

Descripción física: 1 online resource (608 p.)

Mención de serie: De Gruyter studies in mathematics 20

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references (p. [553]-580) and index

Contenido: Frontmatter -- Introduction -- 1 Hypergroups and their measure algebras -- 2 The dual of a commutative hypergroup -- 3 Some special classes of hypergroups -- 4 Positive and negative definite functions and measures -- 5 Convolution semigroups and divisibility of measures -- 6 Transience of convolution semigroups -- 7 Randomized sums of hypergroup-valued random variables -- 8 Further topics -- Bibliography -- Examples -- Symbols -- Index

Formato físico adicional: Issued also in print

Lengua: English

ISBN: 3-11-087759-7

Materia: Hypergroups Harmonic analysis Probability measures

Autores: Heyer, Herbert

Enlace a serie principal: De Gruyter studies in mathematics (CKB)991042745756700

Enlace a formato físico adicional: 3-11-012105-0
