Monografía

This volume provides comprehensive updated coverage of inequality and poverty issues in China. Some of the methodologies developed herein are published for the first time and may be used in other contexts and for other countries. The use of different data sources and state-of-art research techniques ensures that the findings and conclusions can be substantiated and that the policy recommendations are reliable and robust. Contributors to this volume are renowned experts in theirrespective areas, including, notably, Justin Lin, Xing Meng, Kai-yuen Tsui, and Guanghua Wan. For these reasons, those
