Monografía

"In Volume 2 the epic story of Quantum Vibe continues, as the mad scientist Seamus O'Murchadha, his young assistant Nicole Oresme and their new Beltape friend Buford visit terraformed Mars ("Huoxing") and acquire a new companion: a gynoid slave who unwittingly holds a secret that could spell the end of a great Huoxingian dynasty. Proceeding to the colonized asteroid Vesta, our protagonists and their new friend Murphy are presented with a potentially world-shattering mystery: Who murdered Nina Levin, and why?"--Page 4 of cover
