

Regenerative and cell therapy : clinical advances /

Keating, Armand

Springer-Verlag Berlin Heidelberg,
2004

Monografía

This book gives an updated review of the state of the art in regenerative cell therapy in the fields of cardiology, hematology, pediatrics, neurology, orthopedics and infectious diseases. The book emphasizes clinical advances as proof of concept in cell therapy based on the revolutionizing observation that regeneration can occur throughout the body even in highly differentiated organs like the heart and the neuronal system. It provides examples of breakthroughs in the clinical implementation of adult stem cell therapy

Título: Regenerative and cell therapy clinical advances A. Keating ... [et al.].

Edición: 1st ed

Editorial: New York, NY Springer-Verlag Berlin Heidelberg 2004

Descripción física: 1 online resource (187 p.)

Mención de serie: Ernst Schering Research Foundation workshop. Supplement 11

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references

Contenido: Problems and Hopes with Cell Therapy: The Case of Muscular Dystrophy -- Cardiac Myoblasts -- Tissue Engineering, Stem Cells, and Cloning: Current Concepts and Future Trends -- Bone Marrow Cell Therapy for Genetic Disorders of Bone -- Immune-Based Cell Therapy for Acute and Chronic Neurodegenerative Disorders -- Mesenchymal Stem Cells for the Treatment of Hematological Malignancies -- Perspectives in Transfusion Medicine for the Ex Vivo Control of Hematopoiesis -- T-Cell Therapies for EBV-Associated Malignancies -- Peptide Vaccination of Myeloid Leukemia -- Hematopoietic Cell Transplantation after Nonmyeloablative Conditioning

Lengua: English

ISBN: 1-280-74517-7 9786610745173 3-540-26843-X

Materia: Cellular therapy Regeneration (Biology) Stem cells- Transplantation

Autores: Keating, Armand
