Monografía

This volume is a compilation of nine articles, translated from German. They deal with those lexicographic texts or text excerpts which have been formulated in order to convey the meaning of a lexical unit to a potential dictionary user who is not familiar with that meaning. The articles not only critically analyze lexicographic practice, in particular the so-called lexicographic definitions and the items giving the synonyms in correlation with the examples, in the light of different semantic approaches. They also present ways towards a common understanding in the context of lexicographically i
