Monografía

Three Kentucky women find life isn't like anything they expected. Susanna longs for the finer things in life and sees Mammoth Cave as being a way to bring those things to her and her family. When Rose becomes a surrogate mother to a sickly infant, she has no idea that a decade later she'll come face to face with the man whose selfish action gave her a family. Recently widowed, Molly returns to the mountains of her childhood to help raise the children of her dead sister. Will true love ultimately lead these women out of their despair? -- Publisher description
