Monografía

Luke's always been good at knowing things. He could guess at a right answer in class or pick up on things other people couldn't. But now it's sharpened into something much more. Now Luke can actually hear people's thoughts. And there's a weird new girl hanging around who seems to know exactly what he can do. She wants something from him but can he trust her? Not everything is as it seems in this high-octane thriller, perfect for fans of Alex Rider
