

Reviews of national policies for education : tertiary education in Chile

Organisation for Economic Co-operation and Development

OECD/World Bank,
c2009

Monografía

This joint OECD and World Bank review gives a brief overview of post-secondary education in Chile and describes its development over the past twenty years. It presents an analysis of the system and identifies key directions for policy reform in light of the challenges encountered by officials, communities, enterprises, educators, parents and students. It concludes with a set of key recommendations concerning the structure of the system and its labour market relevance; access and equity, governance and management; research, development and innovation; internationalisation; and financing
