Monografía

"When she was young, the writer Flannery O'Connor was captivated by the chickens in her yard. She'd watch their wings flap, their beaks peck, and their eyes glint. At age six, her life was forever changed when she and a chicken she had been training to walk forwards and backwards were featured in the Pathe News, and she realized that people want to see what is odd and strange in life. But while she loved birds of all varieties and kept several species around the house, it was the peacocks that came to dominate her life."--Provided by publisher
