Monografía

Bold, blonde, and beautiful, Honey Behr has no intention of marrying, and no qualms about conning a man in order to survive. But now, she's taken her game too far and, fleeing for her life, she's posing as a mail-order bride and rushing headlong into the arms of the law. When Sheriff Luke MacKenzie sends for a bride, he's looking for a good woman who will care for his young child. Little does he expect to be dazzled by a lying spitfire with curves that almost make him forget he's a lawman. But with hot blood running through both their veins, they can't remain cool for long. Especially when they're fighting off murdering desperadoes and their only thought of surrender is to the torturous desires that rage within their hearts
