Monografía

Agent Kasper is kidnapped in Cambodia whilst on a mission for the CIA to investigate counterfeit money schemes. He is supposed to disappear forever. Because Kasper has uncovered something so terrible, so explosive and so damaging that the intelligence service he works for wants him dead. When Kasper finds himself in the appalling squalor of one of the world's most notorious prison camps near Phnom Penh, the corrupt guards sent to execute him spot an opportunity and wonder - is Kasper worth more alive? A page-turning and nail-biting read, The Supernotes Affair tells the sensational story of an innocent man's determination to survive
