

Analytic mapping and geographic databases /

Garson, G. David,
author

Sage Publications,
1992

Monografía

The techniques of analytic mapping and of geographic information systems (GIS) have become increasingly important tools for analysing census, crime, environmental and consumer data. The authors discuss data access, transformation and preparation issues, and how to select the appropriate analytic graphics techniques

Título: Analytic mapping and geographic databases G. David Garson, Robert S. Biggs

Editorial: Newbury Park Sage Publications 1992

Descripción física: 1 online resource (vi, 90 pages) illustrations, maps

Tipo Audiovisual: Cartography Use of Computers

Mención de serie: Sage university papers series. Quantitative applications in the social sciences no. 07-087

Bibliografía: Includes bibliographical references (pages 82-89)

Contenido: 1. Introduction -- Terminology -- Selected examples of analytic mapping and geographic databases in the social and policy sciences -- 2. Geographic databases -- Geographic information systems -- Data reconciliation across different geographic bases -- Common data sources -- 3. Map graphics -- Digitizing maps -- Graphics file formats, conversion -- 4. Analytic mapping -- Types of maps -- Buffers -- Overlays -- Modeling with maps -- Summary statistics -- 5. Presentation -- Output issues -- Display issues -- Graphic misrepresentation issues -- 6. Conclusion
