

Arterial variations in humans : key reference for radiologists and surgeons : classification and frequency /

Wacker, Frank,
editor
Lippert, Herbert (
1930-),
editor
Pabst, Reinhard,
Dr. med.,
editor

Atlas atlases. Scientific atlases. Atlases. Atlas.

Monografía

A one-of-a-kind reference and atlas to variations in the human arterial system Based on the landmark work Arterial Variations in Man: Classification and Frequency by Lippert and Pabst, this atlas presents the full range of arterial variations that occur in the human body. Adding an interdisciplinary perspective to the original text, Arterial Variations in Humans: Key Reference for Radiologists and Surgeons shows variations of the arteries with schematic diagrams alongside their corresponding radiological images. Chapters begin with schematic and radiological depictions of normal arterial blood supply, followed by images of the arterial variation, to enable rapid identification of individual variations. This unique resource also includes statistics on the frequency of specific arterial variations and explanations of their embryologic origins. Special Features: Coverage of arterial variations in the head, neck, spine, thorax, abdomen and pelvis, and upper and lower extremities with separate chapters devoted to each major artery Clearly drawn schematic outlines and their correlating high-quality radiological scans-more than 900 illustrations in total-highlight arterial variations Images of the "normal" arterial anatomy as described in standard textbooks are provided for side-by-side comparison with the arterial variation Percentages for the frequency of occurrence of arterial variations with references to the source of the data Concise and lucid descriptions in each chapter facilitate complete comprehension of normal and abnormal vascular anatomy With Arterial Variations in Humans: Key Reference for Radiologists and Surgeons, radiologists will gain a full understanding of the diversity of arterial anatomy-essential knowledge for the accurate interpretation of pathological changes in diagnostic imaging. Interventional radiologists and vascular

Título: Arterial variations in humans key reference for radiologists and surgeons : classification and frequency [edited by] Frank Wacker, Herbert Lippert, Reinhard Pabst

Edición: 1st edition

Editorial: Stuttgart New York Thieme [2018] 2018

Descripción física: 1 online resource illustrations

Bibliografía: Includes bibliographical references and index

Contenido: Arterial Variations in Humans: Key Reference for Radiologists and Surgeons -- Title Page -- Copyright -- Contents -- Foreword -- Preface -- Contributors -- Abbreviations -- 1 Introduction -- Part I Heart and Thorax -- 2 Aortic Arch -- 3 Coronary Arteries -- 4 Posterior Intercostal Arteries -- 5 Esophageal Arteries -- 6 Bronchial Arteries (Rami Bronchiales) -- 7 Pulmonary Arteries -- Part II Pelvis and Abdomen -- 8 Development of the Abdominal Aorta -- 9 Inferior Phrenic Arteries -- 10 Suprarenal Arteries -- 11 Renal Artery -- 12 Testicular Artery -- 13 Celiac Trunk -- 14 Hepatic Arteries -- 15 Cystic Artery -- 16 Splenic Artery -- 17 Gastric Arteries -- 18 Pancreatic Arteries -- 19 Superior Mesenteric Artery and Celiac Trunk -- 20 Superior Mesenteric Artery and Colic Arteries -- 21 Appendicular Artery -- 22 Inferior Mesenteric Artery -- 23 Internal Iliac Artery -- 24 Arteries of the Female Genital Tract -- 25 Obturator Artery -- Part III Lower Limbs -- 26 Development of the Arteries of the Lower Limb -- 27 The Profunda Femoris Artery -- 28 Popliteal Artery -- 29 Arteries of the Lower Leg -- 30 Dorsal Arteries of the Foot -- 31 Plantar Arch -- Part IV Upper Limbs -- 32 Axillary Artery -- 33 Development of the Arteries of the Arm -- 34 Brachial Artery and Superficial Brachial Artery -- 35 Arteries of the Forearm -- 36 Superficial Palmar Arch -- 37 Deep Palmar Arch and Palmar Digital Arteries -- 38 Arteries on the Dorsal Side of the Hand -- Part V Head and Spinal Cord -- 39 Subclavian Artery -- 40 Inferior Thyroid Artery -- 41 Vertebral Artery -- 42 External Carotid Artery -- 43 Maxillary Artery -- 44 Development of the Arteries of the Head -- 45 Ophthalmic Artery -- 46 Cerebral Arterial Circle (Circle of Willis) -- 47 Arteries of the Spinal Cord -- Index
