

Australian seeds : a guide to their collection, identification and biology /

Sweedman, Luke
Merritt, David

CSIRO Pub.,
2006

Field guides.

Monografía

This is the first complete guide to the collection, processing and storage of wild collected seed. While the main focus is on Australian seeds, the procedures and protocols described within the book are of international standard and apply to users throughout the world. The book provides a basic understanding to seed biology, evolution and morphology, and includes chapters on all aspects of harvesting, processing and storage of seeds
