

A clinical guide to dental traumatology /

Berman, Louis H.
Blanco, Lucía
Cohen, Stephen

Mosby/Elsevier,
2007

Heridas, lesiones, etc.

Monografía

Describes the treatment and management of commonly encountered traumatic injuries to the teeth. It relates these types of trauma to crown fractures, root fractures, luxation injuries, and exarticulations. A step-by-step reference, this book also discusses complications that may involve surrounding soft and hard tissues, plus those that may arise in managing medically compromised patients
