

An Introduction to Modern Mathematical Computing [With Maple\2122 /

Borwein, Jonathan M.

Springer New York,
2011

Monografía

Thirty years ago, mathematical computation was difficult to perform and thus used sparingly. However, mathematical computation has become far more accessible due to the emergence of the personal computer, the discovery of fiber-optics and the consequent development of the modern internet, and the creation of Maple\2122, Mathematica®, and\00A0Matlab®. \00A0 An Introduction to Modern Mathematical Computing: With Maple\2122 looks beyond teaching the syntax and semantics of Maple and similar programs, and focuses on why they are necessary tools for anyone who engages in mathematics. It is an essential read for mathematicians, mathematics educators, computer scientists, engineers, scientists, and anyone who wishes to expand their knowledge of mathematics. This volume will also explain how to become an \201Cexperimental mathematician,\201D and will supply useful information about how to create better proofs. \00A0 The text covers material in elementary number theory, calculus, multivariable calculus, introductory linear algebra, and visualization and interactive geometric computation. It is intended for upper-undergraduate students, and as a reference guide for anyone who wishes to learn to use the Maple program

Título: An Introduction to Modern Mathematical Computing [Recurso electrónico-En línea] With Maple\2122 by Jonathan M. Borwein, Matthew P. Skerritt

Editorial: New York, NY Springer New York 2011

Descripción física: XVI, 216p. 86 illus., 81 illus. in color. digital

Tipo Audiovisual: Mathematics Computer science Computer simulation Computer science-Mathematics Computer software Mathematics Computational Mathematics and Numerical Analysis Mathematical Software Simulation and Modeling Math Applications in Computer Science

Mención de serie: Springer Undergraduate Texts in Mathematics and Technology 1867-5506

Documento fuente: Springer eBooks

Nota general: Mathematics and Statistics (Springer-11649)

Restricciones de acceso: Accesible sólo para usuarios de la UPV

Tipo recurso electrónico: Recurso a texto completo

Detalles del sistema: Forma de acceso: Web

ISBN: 9781461401223 978-1-4614-0122-3

Autores: Skerritt, Matthew P.

Entidades: SpringerLink (Servicio en línea)

Enlace a formato físico adicional: Printed edition 9781461401216

Punto acceso adicional serie-Título: Springer Undergraduate Texts in Mathematics and Technology 1867-5506
