# Autotools [ a practitioner's guide to GNU Autoconf, Automake, and Libtool /

Calcote, John ( 1964-)

No Starch Press, c2010

Monografía

"The GNU Autotools (the GNU Build System) is a group of utilities designed to make it easy for developers to create software that is portable across many Unix-like operating systems. Autotools: A Practical Guide is the first book to offer programmers a tutorial-based guide to the Autotools"--Resource description p.
