Título: Contemporary research in the mechanics and mathematics of materials [papers presented at the Symposium on Recent Developments in Elasticity held to commemorate professor Jerald L. Ericksen ...at the Johns Hopkins University on June 12-15, 1996 as a part of the 1996 ASME Mechanics and Materials Conference] edited by R.C. Batra, M.F. Beatty

Editorial: Barcelona CIMNE 1996

Descripción física: 500 p.

Mención de serie: Theory and engineering applications of computational methods : a series of handbooks

Bibliografía: Bibliogr

ISBN: 84-87867-74-X

Materia: Mecánica Congresos Materiales- Propiedades mecánicas- Congresos y asambleas

Autores: Batra, R. C., ed.lit Beatty, M. F., ed. lit Ericksen, Jerald L.

Congresos: American Society of Mechanical Engineers. Mechanics and Materials Conference 1996.) Symposium on Recent Developments in Elasticity 1996. Baltimore.)

Punto acceso adicional serie-Título: Theory and engineering applications of computational methods : a series of handbooks
