Título: Functional data analysis J.O. Ramsay, B.W. Silverman

Edición: 2nd ed

Editorial: New York Springer cop. 2006

Descripción física: XIX, 426 p. il. 24 cm

Tipo Audiovisual: Multivariate analysis

Mención de serie: Springer series in statistics 0172-7397

Contenido: Introduction .- Tools for Exploring Functional Data .- From Functional Data to Smooth Functions .- Smoothing Functional Data by Least Squares .- Smoothing Functional Data with a Roughness Penalty .- Constrained Functions .- The Registration and Display of Functional Data .- Principal Components Analysis for Functional Data .- Regularized Principal Components Analysis .- Principal Components Analysis of Mixed Data .- Canonical Correlation and Discriminant Analysis .- Functional Linear Models .- Modelling Functional Responses with Multivariate Covariates .- Functional Responses, Functional Covariates and the Concurrent Model .- Functional Linear Models for Scalar Responses .- Functional Linear Models for Functional Responses .- Derivatives and Functional Linear Models .- Differential Equations and Operators .- Principal Differential Analysis .- Green's Functions and Reproducing Kernels .- More General Roughness Penalties .- Some Perspectives on FDA

ISBN: 9780387400808 acid-free paper) 038740080X acid-free paper)

Materia: Análisis multivariante

Autores: Silverman, B. W. (1952-)
