Título: "Il Male`, Turin. Little shop of horrors

Documento fuente: The Economist . -- 8416. -- (Marzo V. 374 / 2005) . -- 80 p.

Contenido: VITTORIO SGARBI has been many things, but never boring. Art critic, tele-celebrity, member of parliament for the ruling Forza Italia party, Mr Sgarbi courts controversy as avidly as he pursues women and art. He earned international scorn for refusing, while briefly serving as Silvio Berlusconi's under-secretary of culture, to return the Aksum obelisk stolen by Mussolini to Ethiopia.

Suplemento: Democracy stirs in the Middle East
